JCNA Concours Season is January 14 through November 30
(Note: Any earlier would conflict with the 30-day testing requirement and the Holidays)

Updates for 2026 – 2

C. CHIEF JUDGE

1. Designating the Chief Judge

Each club is responsible for appointing the person they deem most suitable for acting as the Chief Judge. The term of office may be left to individual club discretion; however, a minimum of a one (1) year term is suggested. While in the process of developing their own Judge's School, a club may invite the training assistance of an experienced Chief Judge from another club.

Note: Some clubs that do not have a Chief Judge of their own must select a Chief Judge from another club to officiate at their Concours and/or to conduct their Judge's School.

In the event that the Chief Judge is unable to serve on the day of the Concours, due to some unforeseeable reason, the club must appoint the next most qualified Team Lead Judge to serve as Chief Judge for that event. (2026 Rule Change approved at the 2025 AGM for the 2026 Concours Season)

JCNA Concours d'Elegance must have a Chief Judge

Updates for 2026 – 3

3. Chief Judge's Responsibilities

The Chief Judge is responsible for:

- a. ~~Recruiting local club members to be trained and serve as Judges~~
- b. Conducting Judge's Schools. A Judges' training and refresher School must be scheduled and conducted annually at least 30 days prior to the Concours *for Judges who need to re-establish or extend their three-year term or for those who intend to become Apprentice Judges.* (2026 Rule Change approved at the 2025 AGM for the 2026 Concours Season)

Chief Judge is responsible for Judge Certification & Recertification

Updates for 2026 – 4

10. License Plates, Brackets and Mountings

- All models delivered to North America were provided with a prepared bumper location or specific devices necessary for mounting a front license plate. If an Entry does not have a front license plate mounted, and is a model originally delivered with separate license plate mounting devices, those devices must be displayed either on or off the car. Judge the license mounting devices for authenticity.
- *In Champion Division, there must be no evidence of prior mounting of the license plate assembly. (2026 Rule Change approved at the 2025 AGM for the 2026 Concours Season)*
- *In Driven Division only, for Jaguars, such as Series 1 and Series 2 E-Types, that did not have factory pre-drilled holes in the lower portion of the bonnet for mounting the factory license plate bracket, but which have since had holes drilled by the dealership or others*

Page V-10

Judges' Guide to Jaguar Evaluation – Chapter V
JCNA Concours Rule Book – 2026 Edition

for the mounting of the factory plate, if the license plate assembly is removed, leaving visible holes, to avoid a non-authentic deduction, those holes must be plugged by a factory available device, such as the JLR KTC100010 clip. If the mounting area is not black plastic, as on the F-Type, the device must, however, be properly painted to match the surrounding body color. (2026 Rule Change approved at the 2025 AGM for the 2026 Concours Season)

- *In Champion and Driven Division, for the Series 1 and Series 2 E-Type, when the license plate is not mounted, the control rod hole in the lower valance must be plugged with BD20989 referred to as the number plate grommet. (2026 Rule Change approved at the 2025 AGM)*

License Plate Recap

Evidence of prior front license plate mounting.
Plugs required for Driven Division.
(Deduct 0.5 each if missing)
1.0 point Deduction for Championship Division

The License Plate Control Rod fits through the C.4546 Grommet, in Bonnet Front Under Panel.
Note: Control Rod should be black.

When the front license plate is not fitted, the access hole is plugged with the BD.20989 Rubber Plug Sealing Aperture in Bonnet Front Under Panel.

License Plate Recap

Grommet BD20989 is missing
0.5 points deduction (Misc rubber seal)

No holes for mounting bracket
No deductions

Removed slot for control rod is incorrect
2.0 points deduction – Champion or Driven

Note – Not just an E-Type thing.
Most models have similar areas
for the Judges to examine

Judge Certification Reminder

- Issues with Judge Certification are the #1 Reason for delays and challenges with Concours Results Turning Official
- Certification is a Chief Judge responsibility
- In the event that the Chief Judge is unable to serve on the day of the Concours, due to some unforeseeable reason, the club must appoint the next most qualified Team Lead Judge to serve as Chief Judge for that event.
- A working knowledge of Judge Certification is helpful for all Judges and Chief Judges

Apprentice Judge Certification

Judge Recertification

Chief Judge (or designee) must maintain accurate records and update JCNA website

F. Exterior Notes:

- Antennas:** No deduction for factory-installed antennas or neatly installed antennas associated with radios, cell phones, emergency communications or factory offered global positioning navigation systems. Flush-fitting retractable electric antennas were not fitted prior to 1970.
- Badge Bars and Driving and Fog Lights**
 - An Owner may install Jaguar car badge bars and driving or fog lights as long as they and their installation are in keeping with the quality and vintage of the Jaguar. No extra points are to be given or deducted for the presence of these items; however, all installed driving and fog lamps must be functional.
- Badges:** Badges must represent JCNA, JCNA affiliates or other Jaguar or automobile associations.
- Grille-Mounted Badges:** Grille-Mounted Badges are NOT allowed on Champion Division Entries. A maximum of two (2) grille-mounted badges are allowed, on Driven Division Entries
- Bonnet, Boot Lid, Doors and Fenders:** Observe that the component is made of the same material as the original (steel, aluminum, fiberglass, etc.), that its shape is the same as the original (flares, curvature, air scoops, louvers, etc.), and that it belongs on that specific model. This does not include trim, bumpers, lights, handles or other items attached to the basic structure.
- Chassis/Body Posture and Ride Height:** This deduction must be applied to cars whose front, rear, or overall posture or ride height is MARKEDLY higher or lower than specification. *(This problem is most often seen on cars that have been re-sprung or whose torsion bars are seriously misadjusted.)*
- Door Edge Protectors:** These vertically mounted stainless or anodized black protectors were offered by Jaguar Cars Inc. for 1979-1992 XJ and 1976-1992 XJS models. If door edge protectors are installed on other models the Entrant must

“Virtual Judge School”

- Chapter 6, Note G, Page VI-16
- 2025 Rule Change approved at the 2024 AGM

D. JUDGE CERTIFICATION AND CERTIFICATION RENEWAL

1. Judge’s School

To maintain their certification, Judges must be aware of current Rule Changes as approved at the prior year’s AGM. (Rule Change Approved at the 2024 AGM)

The purpose of the Judge’s School is to keep Judges up-to-date on these approved Rule Changes and to provide general information regarding judging in an effort to create a uniform form of judging for all clubs. (Rule Change Approved at the 2024 AGM)

A Judges’ training and refresher School must be scheduled and conducted annually at least 30 days prior to the Concours for Judges who need to reestablish or extend their three-year term or for those who intend to become Apprentice Judges. (2025 AGM Administrative Clarification for the 2025 Concours Season)

At least once every three years, Judges must attend a Judge’s School. (2025 AGM Administrative Clarification for the 2025 Concours Season)

Chief Judges may teach their Judge’s School as they see fit. In-person Judge’s Schools are highly recommended where Judges can share their knowledge and experiences. However, due to circumstances, some clubs may need to train their Judges without having an in-person Judge’s School. (Rule Change Approved at the 2024 AGM)

As an aid, an online Judge’s School presentation is available on the JCNA web site along with an online Judge’s Test for this purpose. (Rule Change Approved at the 2024 AGM)

For those who cannot attend a club’s Judge’s School, they must download and complete the current Judge’s Test then submit the answer sheet to their club’s Chief Judge. (Rule Change Approved at the 2024 AGM)

“Virtual Judge School”

- Hands-On Judging Schools are Great!
- The following charts are a poor substitute....

Judge Currency

- To keep your certification current you must:
 - ◆ Avail yourself to help with judging whenever needed
 - ◆ Inform Chief Judge if you judge for another club (for his / her records)
 - ◆ Receive an annual briefing on rule book changes (*this is one reason you are here today*)
 - ◆ Take **and pass** the current Judge's Test every year.
 - ◆ At least once every three years, attend a Judge's School
- Virtual Judge's School Follows

JCNA Philosophy of Judging

In order for Concours scores to be meaningful in establishing North American competition standings, Judges throughout North America must judge each JCNA Concours Entry on the basis of a recognized **standard**.

- **“The Entry’s configuration and condition shall be as it was officially documented or intended to have left the factory.”**
- Subsequent changes must be documented as authorized by Approved Authenticity Sources, see Appendices C and E.

Protocol – Judge, Entrant & Team

- Don't touch car, tools or handbooks
(Ask Entrant to do it.)
 - ◆ Ask Entrant to open/close the car
 - ◆ Do not sit in car to judge interior
- Do not talk to Entrant unless necessary
- Do not show score sheets to Entrant, except when asking for non-authenticity items to be initialed.
- Do share authenticity knowledge with team members
- **Study the applicable Judge's Guide**

The use of an approved JCNA Judging Guide for the class being judged is Mandatory, if there is one for that class.

Judging Teams

- All Judges must be JCNA members*.
- All Judges must be Certified and Current.
- Team leaders should be helpful, not overbearing.
- Judging Team Members can & should communicate with each other during the judging of the entry.

*One Certified Judge required for OV plus one or two assistants who may but do not have to be certified.

Judging Teams – 2

- Wherever possible, teams should be primarily organized according to the members' shared model/class expertise.
- Keep team intact during scoring *the same class of Entries*.
- A Judge is not allowed to judge the class containing their own car, a family member's car, or a car they have worked on. (This Includes Operation Verification!)

If you have worked on any of our Concours Entries, please let the Chief Judge know before judging begins. Avoid all perceptions of judging conflicts of interest before the judging begins.

Information for Judges

- Definitive Information is from Official Jaguar Publications such as sales brochures, accessory catalogs and parts manuals.
- Other good sources of information are team leaders and Chief Judge
 - ◆ Don't hesitate to ask them
- When a JCNA Judging Guide exists for a model, its use is mandatory.
- The applicable Judging Guide becomes the authenticity standard for the model. Deductions should be made wherever non-compliance is recognized. If a Judge or an Entrant disagrees with a JCNA Judging Guide, the first effort to resolve should be with the Chief Judge, if unable to resolve, they should submit a formal protest/ recommendation, with official reference materials to correct the guide.
- *Rule Book—every Judge should have a copy. Each Judging Team should have at least one as they are judging each Entry.*
- *Share authenticity knowledge as you judge the car. Talk to each other as you judge, point out areas of concern, ask questions of your fellow team Judges to gain guidance and clarification, as necessary .*

Car Presentation – 1

- *The Entry must proceed to its judging location under its own power. [Once, an Entry was disqualified because it could not run and was pushed into position from the parking lot by the Entrant and his staff during the Judges' Meeting]*
- Honor “rags down” time
- Clean out areas to be judged
- Remove accessory floor mats, seat covers
- Leave previously-won trophies & gimmicks at home
- Don't “dis” the competition. *[There have been instances of this. Entrants can be disqualified for this]*
- Be prepared to prove Entrant status if requested. *[An Entry was disqualified in a past event because the Entrant (owner/family member) was not present]*

Car Presentation – 2

- Prepare car for presentation (*Each Entrant will be given instructions to access the Rule Book, but some of them may not have read it*)
 - ◆ Doors-bonnet-deck lid as directed by the Chief Judge
 - ◆ Soft tops erected, latched
 - ◆ Windows up
 - ◆ Gas cap lids, glove boxes, other small **covered** compartments, closed
 - ◆ Spare tire in position, cover on

Car Presentation – 3

- Conditions permitting, prepare separate neat display of:
 - ◆ Side curtains, factory floormats
 - ◆ Front factory-supplied license plate holders
 - ◆ Hood envelope/cover DHC's & XJS or
Tonneau (cockpit) cover (Open XK roadsters)
 - ◆ Standard tools & jack (Champion Division)
 - ◆ Optional tools will be judged if displayed
 - ◆ Owner's manual & pouch (Champion Division)

Unfortunately, some of our Entrants have never read the Rule Book and have gotten upset with Judges over deductions that were in accordance with the Rule Book but that they felt were not fair.

Rags Down - Request

- After the initial "Rags Down" warning announcement, the subsequent failure of any Entrant, family member, associate or any other non-related individual, present at the event, to heed and abide by that warning and not follow the "Rags Down" requirement, will subject that Entrant's continued participation in that event to the immediate review by the Chief Judge and may result in that Entrant's immediate, irrevocable disqualification for that event. Such disqualification once invoked, cannot be withdrawn for that event.

*Note: Wiping off bird droppings for example is OK.
Please let Chief Judge know.*

Judges – Please inform Chief Judge of any violations to enable the Entrant to receive appropriate reminder and fair warning.

So, What's For Us To Judge?

■ JCNA Judges look for:

- ◆ 1) Cleanliness
- ◆ 2) Condition
- ◆ 3) Authenticity
- ◆ 4) Operation Verification

So, What's For Us To Judge?

■ JCNA Judges check for:

◆ 1) Cleanliness

- ◆ Is car free of (serious) dirt, dust, grease, lint, water spots, wax residue, road tar, finger prints?
- ◆ Be mindful of min/max deductions.

Minor dust should not receive a deduction, especially if it could have happened after rags down.

“If it can be seen, it should be clean.” - DC

So, What's For Us To Judge?

■ JCNA Judges check for:

- ◆ 1) Cleanliness

- ◆ **2) Condition**

- ◆ Inspect and deduct for wear, damage, corrosion, discoloration/fading, etc
- ◆ Observe fabric and vinyl creases and wrinkles
 - Deduct if the result of a poor fit
 - (OK if the result of normal folding, contact or operation.)
 - Deduct only if actually damaged
- ◆ Be mindful of min/max deductions.

So, What's For Us To Judge?

■ JCNA Judges look for:

- ◆ 1) Cleanliness
- ◆ 2) Condition
- ◆ **3) Authenticity** – Are judged parts:
 - ◆ Present (Non-authentic if missing)
 - ◆ As authorized by Jaguar
 - ◆ Original or look identical to original, (includes prominent logos)
 - ◆ If multiple deductions for a single component, **ONLY** deduct for the higher point deductions

So, What's For Us To Judge?

■ JCNA Judges look for:

- ◆ 1) Cleanliness
- ◆ 2) Condition
- ◆ 3) Authenticity
- ◆ **4) Operation Verification**
 - ◆ Verification that horns & all exterior lights work

Make sure you take proper deductions as detailed on the OV score sheet.

Judging Techniques

- You may see more if you focus on specific areas one-after-another, rather just looking at the car in general
- For items appearing on both sides of the car, make notes first, then score after seeing the second side [Tip: *Make “tick marks” on the side of the score sheet while judging each side*]
- Talk to your team mates: “What do you think of this? Does this look OK to you?”
- *Avoid duplicating deductions with other Judges. This has happened with sill plates, carpet plugs, and other items.*

Areas/Items Excluded from Judging

■ Do NOT judge:

- ◆ Front or rear suspension components.
(Steering components OK)
- ◆ Brake drums, discs or calipers
- ◆ The underside of the vehicle
- ◆ *The inner sidewalls of road tires*

■ (Body colored areas, visible resonators and tailpipes are to be judged.)

Areas/Items Excluded from Judging

- Clarification: Modified brakes are exempt from non-authentic deductions
- Should be judged for cleanliness and condition only

- Driven Division reminder
- Trunk is not judged
- Tools, Spare Wheel also not judged
- Engine not judged – but must be verified

Operation Verification

- Confirm that specific functional items work
- Done by primary judging team or separate 2-3 person Operation Verification team (*Many Clubs use primary Judging team method*)
- List non-authentic lights or horns on form
 - ◆ Only the Primary Judging team is to deduct points for non-authenticity
- Allow 15 minute “courtesy” repair period after OV check
 - ◆ Judges must not help or advise on repairs

The Entrant is responsible for knowing how to operate the horn and lights on their Entry. This is often not the case. It is NOT the Judging Team's responsibility to instruct the Entrant how to operate their Entry, although you can make a quick suggestion if you are familiar with that model.

Rags Down - Request

- After the initial "Rags Down" warning announcement, the subsequent failure of any Entrant, family member, associate or any other non-related individual, present at the event, to heed and abide by that warning and not follow the "Rags Down" requirement, will subject that Entrant's continued participation in that event to the immediate review by the Chief Judge and may result in that Entrant's immediate, irrevocable disqualification for that event. Such disqualification once invoked, cannot be withdrawn for that event.

Each inoperative light filament or horn receives a 1.0 point deduction.		
An inoperative system receives the maximum deduction indicated.		

- Horns- Every Jaguar has two horns that together sound a chord
- Deduct 1 point if only one horn works
- Deduct 6 points if no horns work
- If both horns work but each sounds the same note, deduct 2.0 points for 1 non-authentic horn, (Chapter VI)

There have been instances in past years where different Judges took off 3.0 points for one inoperative horn. Ooops...

31	Corroded/pitted/rusted	0.2	7	.
32	Cleanliness	0.1	26	.
				.

- Deduction amount should be proportional to size & importance of flaw
 - ◆ Each deduct must be at least the Minimum
 - ◆ Total deduction on each line should not exceed the Maximum

- Use the pre-printed decimal points
- Bold boxes are for scorers only

Avoid entering a 0.1 deduction if 0.2, 0.3, is the minimum.

Deductions Matter!

Effects of Point Deduction

Judges are not to make any final totaling, but
Be Considerate of the Entrant's Final Score
when Making Deductions

Deductions have the following effect on the final score

$$1000 - 0.1 = 999.90 / 10 = 99.99$$

$$1000 - 1.0 = 999.00 / 10 = 99.90$$

A **1.0** deduction will take most Entrants out of
1st Place Competition

- Please be accurate when applying deduction on the scoresheet
- Too many deductions can be too many!
- Don't "kill the car" for trivial preparation items
- But be consistent for the class!

*Confer within judging team
for appropriate deductions*

Example: 2022 C14 North American Scores

Only 0.5 points between top three entrants

Position	Score
1st	100
2nd	99.99
3rd	99.95

Cleanliness Deductions

- Every section has line for **cleanliness**
- Deduct minimum value for a minor fault, more for bigger flaws
- Carefully evaluate accumulated score if multiple cleanliness deductions are present
- Do not exceed the maximum value

Example - Boot Lid Poor Fit

This is more serious and worth
at least a 1.0 deduction

Chapter V, Note C1, Page V-5

Deduct only for excessive misalignment. It is advisable to deduct for excessive misalignment only after discussing such deductions for such misalignment with other team members before such a deduction is determined. Some Jaguars did have panels that fit poorly right from the factory.

XK Tail Pipe (best) Information

- XK 120 – The only chrome exhausts were on the early cars which had the exhaust angled to the left side of the rear wing. All other pipes, exiting the rear, should be black.
- XK 140 – Last 12 inches of each pipe should be chrome/polished
- XK 150 – Last 12 inches of each pipe should be chrome/polished. Later cars had separate chrome extensions attached to each pipe.

Smoothing?

- **“Smoothing”**- As used in this Rule Book, smoothing of a finish refers to the removal of casting or manufacturing blemishes (found primarily on aluminum or aluminum alloy items) that the factory did not take the time to correct.
- a. Items (such as cam covers and carburetor air inlet ducts/horns) whose surfaces were mostly smooth and polished, from the factory, but which had minor blemishes, from mold seams or rough areas caused by mold or casting imperfections, may have those defects "smoothed" and polished, to match the original surface finish of the main portion of the item, without penalty.
- b. Items that were cast in molds that produced a coarse or grainy-textured finish (such as sand-cast carburetor domes and the E-type clutch and brake pedal suspension housings) **SHOULD NOT** have their original overall rough texture removed. This is an authenticity deduction.

Authenticity

- JCNA wants Jaguars to be as the factory meant them to be built or equipped
- Authenticity judging is the search for deviations from this factory/as delivered standard. Look for:
 - ◆ Non-Jaguar-approved parts, such as side moldings or leapers
 - ◆ Incorrect parts, more often found on restorations and following service
 - ◆ Note that a mis-build of original car, if uncorrected, can generate a deduction
 - ◆ *A Missing part is non-authentic*

Authenticity Responsibilities

- **Entrant** is responsible for presenting:
 - ◆ Authentic well-prepared Jaguar
 - ◆ Proof of authenticity on questioned items
- **Judges** are responsible for recognizing items suspected of being non-authentic
 - ◆ Entrants may be able to provide official sources that validate authenticity
 - ◆ Judges are to assess authenticity documentation submitted by the Entrant
 - ◆ (Notes from the Entrant's mother or the dealer don't cut it!!)
Show me the official documentation!!
- Chapter VI per-item deductions **cannot be reduced by the Judge**

Please look up each deduction in the appropriate Rule Book table or QRG.

Authenticity Documentation

- JCNA relies on Jaguar parts books, sales literature and other Company Publications

Common Non-authentic Items to Look For

- To judge authenticity well, you need to be familiar with details of a specific model. Read the Judging Guides. Hard copies of all the approved JCNA Judging Guides are available from JCNA. Electronic versions can be downloaded for free from the JCNA website Concours page.
- In general, look for details that just don't look quite right
- Some common non-authentic items follow.

Non-authentic Missing Parts

- Missing parts are non-authentic
- Parts like windshield trim to right are obvious
- Look at holes as signs of absent parts

Non-authentic Missing Parts

- Example: RHD provisions on LHD vehicle
- These holes are not an indication of missing parts

Non-authentic Missing Parts

- Sometimes you just have to know that parts are missing, *so ask the expertise of others on your Judging Team.*
 - ◆ Q: Is the commission Plate missing?
 - ◆ A: Yes - If this is a Series 1 E-Type!
 - ◆ Note non-authentic fuel line

Non-authentic Wheels

Wrong Size

- 16" wheels from later model year, should be 15"
- Tires also have wrong inside diameter.
- Spare wheel & tire receive separate deductions (Champion Division Only)

Exterior

Non-authentic Wheels

Wrong Finish

Dealer Chrome Plated Wheels

Non-authentic in Championship Division

Exception allowed in Driven Division

Chapter II, Note 1c, Page II-7

c. Alloy Wheels

XJ6/12, XJS, XK8 and other models with factory-supplied alloy wheels, appropriate for the specific model, may be chrome plated or polished. All road wheels must match.

Note: This exception recognizes that many new car buyers believed that their Jaguar's chrome or polished alloy wheels had been provided by the factory when, in fact, the dealers had altered the original factory finish prior to offering the cars for sale.

Fog Lights – Late Model XK

Did you know?

- 2007-2009 XK models have one rear fog lamp
- 2010-2015 XK models have two rear fog lamps

Change Points

- Single Fog / Reversing Lamp → B32752
- Double Fog / Reversing Lamp B32753 →

Processing Non-authentic Deductions

- Judges may confirm opinions of non-authenticity with team leader
- As each Judge completes their examination, they individually inform the Entrant of their non-authenticity findings and ask if the Entrant can document the authenticity of any of the items.
- The Entrant must initial those non-authentic items which remain.
 - ◆ The Entrant's initials only indicate they were made aware of the deductions and given the chance to present documentation. Their initials do not signify agreement.
 - ◆ Conflicts in these matters should be referred to the Chief Judge for resolution.
 - ◆ Refusal to sign may be grounds for the Entrant's disqualification.
 - ◆ **If the Chief Judge is unable to resolve any non-authentic questions, the Entrant should then be advised of the opportunity and process overview for filing a protest with JCNA.**
 - ◆ If a component has multiple deductions, list only the one with highest point value.

Some Entrants have complained that they didn't know what they were signing. Some Judges have failed to get the Entrant's initials and the points were returned.

Scoring Non-authentic Items

- Use non-authentic deductions listed in Chapter VI
 - ◆ Find a similar flaw if the observed fault is not specifically listed
 - ◆ No changes to minimum deduction allowed
- Don't exceed maximum for the component area
 - ◆ Exterior, Interior & Engine 200 points ea.
 - ◆ Boot 100 points (Not judged for Driven Division)
- If a Component Judge is unsure about any Non-authentic Deduction, ask questions of another Team Judge on the same team, the Team Lead and or Chief Judge for verification.

This is one reason why each Judging Team should have a current Concours Rule Book or Chapter VI QRG. Some Judges have not used the tables correctly to determine the proper mandatory deduction.

Score Keeper Actions

- Will send score sheets back to team/Judge when:
 - ◆ Sections unscored, non-authentic items not initialed, writing is unreadable, Judge's' name missing
 - ◆ **C & C deducts not located**
- Two scorers add up deductions
 - ◆ If they disagree, resolve the difference
- Check off Entrant on master list
- Arrange completed scoresheets by class & score
- Entrants are not allowed in the scoring area

Judges and Judging Team Leads must do a better job of checking for score sheets errors before turning them in.

Cleanliness and Condition Deductions

- A single item may be assessed both a non-authenticity deduction and Cleanliness and Condition deductions.
- A single item/component, judged to have more than one non-authentic issue, such as both wrong configuration and finish, should only be given a single non-authentic deduction. However, the point deduction given should be the one with the highest point value associated with the non-authenticity issues observed.

License Frames

Champion Division:

Plain license plate frames or those advertising current or past Jaguar dealerships, JCNA, JCNA Affiliates, or promoting the Jaguar marque are accepted. Frames may be of any material. All other license plate frames will be scored as non-authentic unless the Entrant can document that Jaguar Cars Ltd., Jaguar Cars Inc., or Jaguar Canada Inc. offered them for that specific model and Model Year.

Driven Division:

License plate frames and/or covers will only be judged for cleanliness and condition.

Clear plastic or glass license plate covers are allowed and, if present, will be judged for cleanliness and condition.

Non-Authentic Pin Stripes

Pin stripes in this image are in the wrong location and are not authorized for this year/model.

XJS Pin Stripes?

- | | |
|--------------------------|-----|
| ■ 1976-1982 (Pre HE) | NO |
| ■ 1982 thru 1990 (+ H&E) | YES |
| ■ 1991-1993 | NO |
| ■ 1994 6 Cyl. | NO |
| ■ 1994 12 Cyl. | YES |
| ■ 1995-1996 | NO |

All Jaguar factory pin stripes, for US cars, were taped-on, not painted and had their own part numbers.

The maximum deduction for wrong or missing pin stripes is 1.0 points

There is a pin stripe table in the Rule Book to assist you.

Wire Wheels

- Wire wheels have different spoke counts, Standard 48, 54, 60 & 72. (LH photo, 54 spoke, RH photo, 72 spoke)
 - ◆ See Rule Book, Appendix B for proper count
 - ◆ XK120, 140, 150 - 54 spoke
 - ◆ Late model 150's had 60 spoke June '58-60
 - ◆ Small saloons (3.4 Saloon (Mk1), Mk 2, 3.4 - 3.8S), and E-types - 72 spoke

Exterior – Tire Authenticity

- Check tire authenticity
 - ◆ Reference Appendix B for size, speed rating, explanation of tire markings
 - ◆ Cars less than 15 years old must have tires whose speed ratings are equal, equivalent or superior to their original tires.
 - ◆ “Replacement” does not = “Equivalent”
 - ◆ Black or white sidewall are Entrant’s option
 - ◆ WSW should be consistent with vintage

Check the Rule Book to make certain that the Entry has the correct size and speed rating tires. Occasionally they do not and this is a significant deduction.

Leapers

- Leaper hood ornaments have been added by owners & dealers
 - ◆ JCNA allows Leapers on XJ Series 1-2-3 and XJ40 (1968-94), XJ8/R sedans, Large sedans (Mk VII, VIII, IX, MK 10, 420, 420 G) and small sedans (3.4 (MK1), Mk 2, 240 & 340 variants, 3.4 - 3.8S)- 1950-1969
 - ◆ Leapers are non-authentic on XK120, XK140, E-Types, XJS and XK8 models
 - ◆ Optional on XK150

Leapers (Continued)

- Between 1970 and 1994 Jaguar Cars Ltd. discontinued leapers on all models. During that period, NO official Jaguar Cars Ltd. publications listed leapers/mascots in any production model Parts Books. At the same time, North American dealers responded to customer's demands and, upon request and otherwise, installed leapers on Series 1, 2 and 3 XJ6 and XJ40/XJ81 Style Saloons. In 1994, X300/X305 model saloons, exported overseas, were the first to be offered with the Jaguar Cars Ltd. redesigned "safety" leapers. Ref: JCNA Judge's Manual Page VI-2.

License Plate Holders & Brackets

- Factory included provisions and necessary hardware for front license mounting on all cars delivered to **North America**.
- If the car originally had a separate front license bracket, it must be displayed on or off the car.
 - ◆ Requires a non-authentic deduct if missing or not displayed
 - ◆ Often missing on E-Type and other Sports Car Models
 - ◆ JCNA does not require a license plate to be present, just the factory-supplied bracket.
 - ◆ State or Federal legality not a JCNA issue

Hose Clamps

- Hose clamps pre-1975 should have
 - ◆ Round head, straight-slot adjusting screws. No hex heads. Predominantly CHENEY brand.
 - ◆ Clamp strap/band, grooved for adjusting screw, not perforated
- Excess band length $> 1''$ approx. is non-authentic (Equates to wrong size)

Good Pre-'75 Hose Clamps

Blued and cad-plated Cheney clamps.

A few Jubilee's look
almost identical to
Cheney's

Tex/Griptide common
on early 120's

All proper clamps have solid straps and straight-slot
round-head adjusting screws.

Non-Authentic (pre-'75) Hose Clamps

Brake and Otter Switches

Brake light switches

Otter switches

Early cars should all have screw-fastened wire terminals. Blade/Lucar-style did not appear until the late '50's and early '60's (1962 for Otter switches, per George Camp, JCNA Authenticity Committee, 2011)

Plug Wire Ends

Pre- DEC '52 XK 120

Note: in-line capacitors
(noise filters) fitted if radio
installed

Grommets

- Rubber grommets in firewall or fender apron are used to seal out engine heat and fumes or protect wire harnesses or hoses/tubing from chafing
 - ◆ If they do not seal, or nearly seal, on the inside diameter, they are probably non-authentic

Note items with odd coloring

- Be suspicious of brightly colored items in the engine compartment.
 - ◆ Cooling, heater or vacuum hoses other than black are non-authentic, *except for nylon hose in E-Type spare tire area.*
 - ◆ Electrical connectors other than black or clear are usually non-authentic

Series 2 E-type Correct Fuel “T”

Fuel “T”

Metal fuel “T’s” in this location are non-authentic. (The original fitting is again available as re-manufactured by SNG Barratt.)

Bolts, Washers, Hinges and Strikers

- Bolt and washer finish often depended on the assembly sequence at the factory
 - ◆ Fasteners, securing items to the welded body before painting, such as bonnet or door hinges and their attaching nuts and bolts will be body color along with item.
 - ◆ Bonnet, doors and boot lid striker hardware may be correct if painted.
 - ◆ Paint damage on contact area on striker hardware is not deductible unless associated with poor alignment.

Nuts, Bolts, Screws and Hardware

- ◆ Some screw (not bolt) fasteners, for items mounted after the body was painted, are cadmium plated (whitish finish, medium gloss).
- ◆ On most XK and earlier models, nuts and bolts all had a black oxide finish and distinct British word logo markings such as “BEES”, “AUTO”, “GKN”, etc.
- ◆ Most under-hood & boot hardware, installed after the body was painted, is black.

Series 3 E-type NOS Air Rails with Yellow Chromate Conversion Coating (YCCC)

Series 3 E-type

Tubing, originally YCCC finished, should appear as flat or satin yellow-tinted cad, not glossy as yellow chrome.

Series 3 E-type

Reasonably correct restoration of YCCC finish:

Non-authentic Fasteners

- Nearly all early nut and bolt fasteners are hex head with black oxide/flat black finish, not cadmium. Bolt heads should have British markings
 - ◆ Highly polished plated fasteners are non-authentic
 - ◆ Chromed/nickel dome nuts on XK engine cylinder head and cam covers are exceptions
- Virtually every rotating fastener, bolt or nut, should have a washer under it
- Engine breather cover dome nuts should have lock washers, not flat copper (At least thru E-types)

Breather Cover Washers

Correct washers on ALL breather covers are split/lock washers, NOT flat copper

Incorrect XK120 Harness Routing

Correct XK120 Harness Routing

XK120 10-Way and Wing Support

Cylinder Head Washers

- XK engine cylinder head dome nuts use 'D' shape chromed washers, except round ones are used in front corners, at the lifting brackets and the sparkplug wire holder.
- Dome nuts have been seen either as chrome or nickel plated

Judging Batteries – 1

Do not judge batteries that are in their own compartment
or covered by a factory panel.
Includes XK120, XJ-S, XJS, XJ40, XK8, XKR, X-Type

Judging Batteries – 2

- If the battery is judged:
- Check battery type, location, wires, connectors and hold down
 - ◆ Helmet type connectors were used into the 1970's
 - ◆ Fluted style batteries are non-authentic
 - ◆ Battery is covered in two locations on the score sheets: Boot and engine. Judged by appropriate judge for the location

Batteries are NOT judged in Driven Division,
but they are judged in Champion Division
and Special Division. *

** Unless in their own compartment or covered by a factory panel*

Phones, Alarms and Sound Systems

- No penalty for neatly installed authentic phones, alarms i.e. authorized for the specific model
- Radar *detector* from other than Jaguar is non-authentic
- Radio
 - ◆ Champion Division- no penalty for neatly installed, vintage-correct radios with original mounting, original speaker location & grilles
 - ◆ Driven Division- no penalty for contemporary sound systems & speakers in original location

Accessories

- Vintage/Period-correct seat belts may be added
- Added instruments, compasses, clocks, switches or controls on instrument panel, are non-authentic
- Seat covers and aftermarket steering wheel covers left installed, are non-authentic

Logos and Decals

- Parts and accessories which, when properly installed, normally allowed the manufacturer's cast, engraved or imprinted logo to be plainly and easily observed, are considered non-authentic if the original brand name or logo is missing.
- Decals, stick-on labels and metal tags are judged individually. If wrong or missing, they may each be given the (minimum) 0.5 point deduct. The components, to which they are (or should be) attached, are judged separately.

Logo frequently missing from the backing plate on after-market Lucas-style mirrors. (Logo plates are available.)

Lucas logo. Non-authentic if missing.

Straight-slot screws correct.

Correct Lucas logo on back-up light.
(Item has been restored and pop-rivets are not original.)
